RE: GREEN OFFICE LETTER OF RECOMMENDATION

To Whom It May Concern

I can highly recommend Green Office's services. We have been using their remanufactured cartridge solution since 1 May 2017. Green Office offers high quality services and we can say that we have always been satisfied with their level of professionalism and work.

One of the key value adds to our specific environment is now having the visibility and control over toners issued to our 900 branches nationally, as this results in major cost saving opportunities for the JD Group.

Green Office does not only offer a cartridge supply service, but rather a managed cartridge solution including:

- Co-management of internal workflow processes
- Monitoring of usage to prevent duplication of orders to our branches
- Remanufactured guarantee as governed by the STMC standards
- Monthly reporting on SLA performance and cost recovery to the Group's business units
- Collection of empty cartridges and annual reporting on environmental impact

I would strongly recommend the services of Green Office. If you have any questions, please feel free to contact me.

Sincerely,

Johan Claassen
